1. APPLICATION PROCESS

Stage 1

Expressions of Interest are sought from artists (or a team of collaborating artists) to deliver a piece of Public Art. Shortlisting will be based on the information provided (see *Appendix A*) using the *Evaluation Criteria set out in Appendix B*. **Please read Appendix A carefully and comply fully with the requirements.**

The deadline for receipt of applications is **4pm Tuesday 11th November 2014**. The selection panel will consider submissions received by this deadline and select up to three to go forward to Stage 2 of this process.

There is no payment for artists submitting expressions of interest. Artists who are selected from Stage 1 to proceed to Stage 2 will be asked to develop the idea further.

Stage 2

£500 will be made available to up to three artists / teams who will be invited to present their proposals to the selection panel. The Stage 2 proposal must include:

- sketch designs, visualisations and/or a maquette
- an explanation of the concept for the artwork
- a description of how it relates to our vision (as outlined in Section 5)
- an outline of how the artist/artist team would approach its design, fabrication and installation, and
- details of maintenance requirements and lifespan expectations

The artist/artist team must demonstrate how the work can be implemented within the allocated budget and provide details of the anticipated duration of the project with the timescale broken down into research, production and delivery. The selection panel aims to select one artist / team to undertake the commission.

The Bailieborough community will be at the heart of this project and the selected artist/artist team must demonstrate how they will work with the community to develop a sense of ownership and pride in their environment – and most importantly help create a shared space for all. Therefore the artist/artist team must also outline the approach they will take to engage and work with the local community and showcase successful projects where they have done this in the past in a similar environment.

Selected artists / teams must submit their presentations to Ms Catriona O'Reilly, Arts Office, Cavan County Council, Courthouse, Cavan by the stipulated deadline of **4pm Tuesday 11 November 2014**. **Expressions of interest must be submitted in hard copy.**

2. BACKGROUND

The project seeks to develop a legacy artwork reflecting Bailieborough's journey towards peace.

The Building Peace through the Arts – Re-Imaging Communities Programme themes are:

- community cohesion
- regeneration through the arts
- positive relations at local level
- peace and reconciliation, and
- connecting communities.

As a first phase of the project the Bailieborough Community developed a local steering group to help manage the process. An artist facilitator was recruited to carry out creative community consultation with a wide range of stakeholders in the community including members of sporting groups, the Bailieborough School of Music, local schools, the women's group, and others.

She presented a report of her findings to the steering group which included a number of themes and site locations for the proposed artwork. The local steering group agreed '**Forging Ahead**' as the theme most open to artistic interpretation.

The preferred location for the public art is the side the library building (the Market House), Main Street, Bailieborough.

Front of the Market House (Library Building), Bailieborough, and view of the proposed site to the side of the building (disabled parking bays to be relocated).

Bailieborough is a large town in the east of County Cavan. It was a plantation town and consequently has a strong industrial craft heritage, with the foundry once being a major employer. People of the area have lots of connections to it, either through family members being employed or having a piece of the cast iron in their homes or in local bars /restaurants. The cast iron from the foundry is recognised far and wide. Today Bailieborough has a strong religious and ethnic mix.

3. ARTIST'S BRIEF

Theme: 'Forging Ahead'

'From Bailieborough's Divided Pasts towards our Shared Future' the theme most open to artistic interpretation.

The title refers to the unique history of the town as having industrial craft heritage. The people consider themselves to be resilient and determined and this attitude has shaped the development of the town and its many businesses and creative endeavours. In particular the Bailieborough Foundry was considered important in the town and was one of only two foundries in the country that made the iconic black and white Irish road signs. The town is home to several writers, and music and sport play a big part in the life of the community. Those consulted for this brief recognised that in the past there was segregation between religious communities, particularly through education/boarding school, the attitudes to the hunger strike and consequent actions by certain members of the community. However, the community today is embracing of diversity and determined to shape a positive future for the town.

These direct quotes from participants in the Re-Imaging Communities consultation process reflect some of the thinking behind the proposed theme:

"It was a very unspoken division but it was there. Our division as a community was with gritted teeth; it would have been easier if we got it out of our system."

[Aspirations for the art work] "Links past, present and future and shows a community working together"

"Linking past to future creating a new identity for the whole community"

"Uplifting, joyous and determined" [Local feeling about the future of Bailieborough]

"Connecting the past to the future"

Project Specific Constraints: It is part of the artist's brief to contact utilities companies and statutory agencies for advice in regard to nearby services i.e. electricity and water supply for any artist wishing to incorporate light or water as part of the art works, although this is not a pre-requisite of the brief. Any work involved in extending the services to the site will be part of the overall budget. The site is on a road junction so, consequently, the artist will need to ensure that materials used take road safety into consideration.

Materials: The brief does not specify the materials to be used, but the artwork is intended to be permanent and of high quality. Therefore it should be made of high quality, durable materials which require minimum maintenance.

Other Considerations: The successful artist will be expected to provide satisfactory drawings and elevations to satisfy planning procedures. On completion of the project, the successful artist will be required to provide an engineer's certificate to satisfy the Steering Panel that the artwork has been designed, constructed and installed in accordance with current standards and judgments.

4. PUBLIC ART SELECTION PANEL/STEERING GROUP

The selection panel is comprised of representation from local stakeholders, Cavan County Council and the Arts Council of Northern Ireland. This panel will be responsible for all short-listing and selection procedures as well as overall management of the project.

5. STAGE 1. - EXPRESSION OF INTEREST SUBMISSIONS

Submissions for Stage 1 will be assessed against the following criteria: The scoring threshold is 60%.
