1. APPLICATION PROCESS

Stage 1 Expressions of Interest

Expressions of Interest are sought from artists (or a team of collaborating artists) to deliver a piece of Public Art. Shortlisting will be based on the information provided (see *Appendix A*) using the *Evaluation Criteria set out in Appendix B*. **Please read Appendix A carefully and comply fully with the requirements.**

The deadline for receipt of applications is **5pm on Friday 5 December 2014**. The selection panel will consider submissions received by this deadline and select up to three to go forward to Stage 2 of this process.

Stage 2 Proposal

£500 will be made available to up to three artists / teams who will be invited to present their proposals to the selection panel. The proposal must include; sketch designs, visualisations and/or a maquette as well as an explanation of the concept for the artwork, how it relates to our vision (as outlined in Section 5) and how the artist/artist team would approach its design, fabrication and installation. Details of maintenance requirements and lifespan expectations should also form part of the presentation.

The artist/artist team must demonstrate how the work can be implemented within the allocated budget and details of the anticipated duration of the project with timescale broken down into research, production and delivery. The selection panel aims to select one artist / team to undertake the commission.

Killesher Community Development Association (KCDA) will be at the heart of this project and the selected artist/artist team must demonstrate how they will work with the community to develop a sense of ownership / pride in the piece & the environment and most importantly help create a shared space for all. Therefore the artist/artist team must also outline the approach they will take to engage and work with the local community and showcase successful projects where they have done this in the past in a similar environment.

Selected artists / teams must submit their presentations to Mr. Desmond Reid, Secretary, Killesher Community Development Association, Larganess Centre, Tully Mill Complex, 28 Mill Road, Florencecourt, Co. Fermanagh, BT92 1DB by 5pm on Friday 5 December 2014.

2. BACKGROUND

This project seeks to develop a legacy artwork, of exceptional quality. Killesher, situated in south west Fermanagh adjoining the Cavan border, is a dispersed rural area. Killesher Community Development Association (KCDA) was set up in 1994 as a cross community group and covers the geographical area of Killesher parish. Within the area, the two communities are divided spatially, the east and west are predominantly Catholic, whilst the centre around Florencecourt village is predominantly Protestant.

Killesher Community Development Association has a track record in bringing together people from different political / religious backgrounds and aims to strengthen community cohesion locally. The Tully Mill Complex where the art work will be sited is regarded by both the main sections of society as a shared space.

The *Building Peace through the Arts – Re-Imaging Communities Programme's* themes are community cohesion, regeneration through the arts, positive relations at a local level, peace and reconciliation, and connecting communities.

As a first phase of the project, Killesher Community Development Association developed a local steering group to help manage the process. An Artist Facilitator was recruited to carry out creative community consultation with a wide range of stakeholders in the community. He presented a report (which is available by email to all artists/teams upon request) containing his findings to the steering group including possible themes and potential site locations for the proposed artwork. The steering group agreed '**Meeting Place**' as the theme most open to artistic interpretation. The preferred location for the public art is at the Tully Mill Complex.

3. ARTIST'S BRIEF

Theme: 'Meeting Place'

The theme reflects Tully Mill's role in facilitating cross community dialog for hundreds of years and the aspiration that the two main communities can overcome past division to build better relationships in the future.

The selected site has been an important part of the economic and social infrastructure of Killesher / Florencecourt since a water-powered corn mill was established there in the 18th Century. Centuries before the term 'shared space' entered the lexicon, the mill provided opportunities for Catholics and Protestants to interact with each other on a daily basis.

The mill ceased operating in the 1940s and the building fell into disrepair in the following decades. Killesher Community Development Association was instrumental in restoring the site during the 1990s and it now once again acts as a social and economic community hub boasting a restaurant, community meeting space and self-catering cottages.

Project Specific Constraints: It is part of the artists brief to contact utilities companies and statutory agencies for advice in regard to nearby services i.e. electricity and water supply for any artist wishing to incorporate light or water as part of the art works, although this is not a pre-requisite of the brief. Any work involved in extending the services to the site will be part of the overall budget.

Materials: The brief does not specify the materials to be used, but the artwork is intended to be permanent and of high quality. Therefore should be made of high quality, durable materials which require minimum maintenance.

Other Considerations: The successful artist / team will be expected to provide satisfactory drawings and elevations to satisfy planning procedures. On completion of the project, the successful artist will be required to provide an engineer's certificate to satisfy the groups Steering Panel that the artwork has been designed, constructed and installed in accordance with all relevant and current standards and judgments.

4. PUBLIC ART SELECTION PANEL/STEERING GROUP

The selection panel is comprised of representation from local stakeholders, and the Arts Council of Northern Ireland. This panel will be responsible for all short-listing and selection procedures as well as overall management of the project.

5. STAGE 1. - EXPRESSION OF INTEREST SUBMISSIONS
